

40 days with flood potential in 2018

May	12, 13, 14, 18, 28, 30	6
June	16, 17, 18, 19, 24, 30	6
July	4, 5, 7, 8, 12, 15, 16, 17, 21, 22, 23, 24, 25, 26-27, 28	16
August	6, 7, 14, 17, 18-19, 21, 22	12
Sept	4-5, 5, 6, 19	4

- **Red** date indicates rain alarms occurred.
- **Blue** date indicates rain alarms occurred only in areas outside UDFCD's main area of concern such as northern Boulder County or the Hayman Burn Area in southwestern Douglas County.
- **Green** box designates NWS flash flood watch.
- **Orange** box designates NWS flash flood warning.
- **#-#** indicates nocturnal event spanning 2 calendar days.

The traditional Flood Hazard News (FHN) annual newsletter has been replaced by the [UDFCD Annual Report](#). Future FHN publications will focus on UDFCD's flood warning services and documenting the respective year's most significant storm and flooding events.

Annual reports summarizing [F2P2 activities](#), [QPF-Max](#), and [ALERT System maintenance](#) are available.
