

40 days with flood potential in 2018

May	12, 13, 14, 18, 28, 30	6
June	16, 17, 18, 19, 24, 30	6
July	4, 5, 7, 8, 12, 15, 16, 17, 21, 22, 23, 24, 25, 26-27, 28	16
August	6, 7, 14, 17, 18-19, 21, 22	12
Sept	4-5, 5, 6, 19	4

- **Red** date indicates that rain alarms occurred.
- **Blue** date indicates that rain alarms occurred only in areas outside UDFCD's main area of concern such as northern Boulder County or the Hayman Burn Area in southwestern Douglas County.
- **Green** box designates a NWS flash flood watch.
- **Orange** box designates a NWS flash flood warning.

The traditional Flood Hazard News (FHN) annual newsletter has been replaced by the [UDFCD Annual Report](#). Future FHN publications will focus on UDFCD's flood warning services and documenting the respective year's most significant storm and flooding events. The 2018 issue will be released later this year.

Annual reports summarizing [F2P2 activities](#), new [QPF tool](#) developments, and [ALERT System maintenance](#) are available.
